財務報告附註

#### 1. 組織結構與重要會計政策

富蘭克林價值投資人信託(本信託)是依據美國 1940 年投資公司法案(簡稱為 1940 法案) 註冊成立的開放式投資公司,其投資三支個別基金(富蘭克林潛力組合基金為其中之一)。本 基金遵循美國財務會計準則委員會(FASB)所認定之 Accounting Standards Codification Topic 946(財 務服務:投資公司(ASC946))且採用美國一般公認會計原則(U.S. GAAP)之專業會計和報導 指南,包括但不限於 ASC946。本基金提供五種股份類別:A股、C股、R股、R6 股與 Advisor 股。C股在持有 8 年後將按月自動轉換為 A 股。各股份類別的首次銷售手續費、或有遞延銷 售手續費、對單一股份具影響之事件的投票權、轉換權益、不同約定之分銷費用及股務代理 機構費用皆有所不同。

本基金重要會計政策摘要如下:

#### a. 財務工具評價

本基金為每日以公平價值(fair value)評價投資的財務工具。公平價值是市場參與者於秩序交易 中,賣出資產或轉移負債於衡量日所被買賣參與者接受的價格。本基金在每個營業日的美東 時間下午四點或紐約證券交易所(NYSE)正常排定的收盤時間計算每股淨資產價值(NAV),以較 早者為準。在基金董事會(董事會)所核准的政策及程序下,董事會已指定基金的投資經理為評 價指定人,並負責監督評價。投資經理在基金管理人的協助下履行此職責,亦包括領導跨職 能評價委員會(the Valuation Committee(VC))。本基金得以利用獨立定價服務、來自證券和財務工 具的交易商所提供的報價及其他市場資訊來決定公平價值。

在證券交易所或那斯達克交易系統掛牌之股票是分別以最後公告售價或當日官方收盤價格計 價。外國證券是以證券主要交易之外國證券交易所或是東部時間下午四點的收盤價估值,其 價格將以外國證券依每個營業日當日東部時間下午四點的收盤匯率被轉換成美元後的價值而 定。店頭市場交易證券其估值則不超過最近一次的買賣報價範圍。同時在多個市場或多個交 易所進行交易的證券,其估值則以最具廣度和代表性之市場的報價為準。某些股權證券是以 類似證券的基本特徵或關係為評價基礎。

投資於開放式共同基金則以結算後的淨資產價值評價。

當財務工具缺乏可以信賴或是無法獲得市場價格時,本基金採用一些程序來決定其公平價值。在這些程序下,本基金主要使用市場基礎法(market-based approach),即使用相關或可比較之資產或負債、近期交易、市場乘數及其他相關資訊來決定投資之公平價值。收益基礎衡量法(income-based valuation approach)也可用於投資之預期未來現金流量折價以計算公平價值。由於處分投資的限制的本質或是存續期間,可能也使用折價來計算。由於此類投資評價固有的不確定性,其公平價值與交易市場的價格可能會有顯著的差異。

於外國證券交易所及店頭交易市場掛牌證券的交易,可能早於東部時間下午四點時間。此外, 某些外國市場的交易並不會發生在每一個基金的營業日內。有時候,在外國證券交易完畢與 東部時間下午四點之間的時間裡發生的事件可能對本基金所持有之投資組合證券價值的可信 度造成影響。因此,由外國市場收盤後所決定之基金組合證券價格與東部時間下午四點最近 的價格間,可能會產生差異。為了最小化這些潛在的差異,本基金得採用獨立定價服務將本 基金投資組合證券的價值調整至東部時間下午四點最新指標的公平價值。截至2023年10月 31日,部分證券已使用公平價值程序來定價,在這種情況下,這些證券被分類為公平價值衡 量層級中的等級2,稱為「市場公平價值」,更多說明請參閱附註「公平價值衡量」。

#### 1. 組織結構與重要會計政策(承續前文)

#### a. 財務工具評價(承續前文)

當申報期間的最後一日為非營業日時,某些外國市場是在基金的淨值未被計算時營業,此可 能造成基金投資組合證券的價值在申報期間的最後營業日及最後日曆日間所有差異。任何因 外國市場開市所造成之顯著證券價值變動將被基金為反映財務申報目的而進行調整和反映。

#### b. 外幣轉換

投資組合中以外幣結算的證券以及其他資產與負債,是在估值日以這類外幣對美元的匯率轉 換成美元來定價。本基金可能簽訂外匯契約協助以外幣計價的交易。以外幣結算之證券的申 購與銷售,收益與費用項目是以在交易日生效的匯率轉換成美元來定價。以外幣計價之投資 組合證券、資產及負債包含這些外幣相對於美元價值下跌的風險。有時候,事件的發生可能 影響外幣對美元匯率的可獲得性或可信度。若有此類事件發生,將以本基金董事會所建立並 核准之程序來確定該匯率的公平價值。

本基金不會單獨報告由於持有證券的市價變動而引起的外幣匯率變動的結果。這類的變動已 包含在經營業績表的淨實現與未實現投資利益或損失中。

已實現的匯兌利得或損失來自於外幣銷售、在證券的交易日與交割日之間所實現的貨幣利得 或損失及股利、利息、外國預扣稅的紀錄金額與其實際交付的等值美元金額之間的差異。淨 未實現匯兌利得或損失來自於在報告期末除所持有的投資證券之外,以外幣結算之資產與負 債的外幣匯率變動。

#### C. 所得稅及遞延稅

按照基金政策,本基金必须符合美國稅務法對於投資公司的規定,對股東分配幾乎所有的應 稅收益與淨實現利益以免於繳納聯邦所得稅及特許權稅,因此無需預提美國聯邦所得稅。

本基金在外國管轄區域的投資所收取的收益、證券售出的資本利得以及一些外匯交易可能須 繳納外國稅捐。如有外國稅捐,其金額將依據本基金所投資之外國市場實施的稅務法規與稅 率申報。如外國對淨實現利得加以課稅,本基金將記錄預估的遞延稅賦義務,其金額相當於 當證券在評價日交易須支付的稅額。

只有當稅務機關基於稅項的技術優勢進行依據美國一般公認會計原則(U.S.GAAP)審查時認為 不明確稅項低於 50%的可能性將持續的情況下,本基金才會承認不明確稅項的賦稅利益。於 截至 2023 年 10 月 31 日止及所有開放稅賦年度,本基金認為沒有因被要求於納稅申報表所揭 有關不明確稅項之納稅申報(或預計在未來進行納稅申報)之未承認賦稅利益而產生的負債。 開放稅賦年度為基於稅賦管轄權之法定時效限制下仍須接受審查的年度。

#### d. 證券交易、投資收益、費用及配息

證券交易是在交易日作入帳。證券交易之已實現利得或損失則決定於特定基礎。股利收入是 在除息日入帳,除了某些來自外國證券的股利是在本基金接獲除息日通知才立即認定。對股 東的配息是在除息日入帳並且依據所得稅法(稅基)確定。以稅基所決定的可分配盈餘可能 不同於依照一般美國公認會計準則所紀錄的盈餘。這些差異可能是永久或是暫時的。永久性 差異將產生在資本帳戶被重新分類以反映其稅賦特性。這些重新分類對淨資產或是經營業績 並不會造成影響。暫時性差異則不用重新分類,因為差異在後續期間將會迴轉。

本信託所產生的共同費用,將依個別基金的淨資產估本基金的總淨資產的比率來配置到各別 基金或基於每個基金的股東人數與信託股東總數的比率,個別基金單獨產生的費用將直接記 錄在招致此費用的基金帳內。

### 1.組織結構與重要會計政策(承續前文)

#### d. 證券交易、投資收益、費用及配息(承續前文)

已實現與未實現利得與損失以及淨投資收益(股份等級特定費用除外),是依照個別股份等級 的淨資產之相對比重而每日分配到個別股份等級。股份等級的費用差異可能導致各股份等級 每股配息款項的差異。

#### e. 會計估計

管理階層依照美國一般公認的會計準則(U.S.GAAP)編制財務報表時需要做出會計估計與假設。這些會計估計與假設會影響於財務報表日的資產與負債金額以及在財務報表期間的收入 與費用金額。實際結果可能與估計值不同。

#### f. 保證及賠償

在本基金的組織文件規定下,本信託同意免除其主管與董事在某些超越其職責範圍而發生的 負債的責任。此外,在正常業務狀況下,本信託代表本基金與服務提供機構簽訂契約也包含 責任免除條款。本信託在這些免責條款下的最大風險是未知的,因為涉及未來可能對本信託 發生的被訴訟索賠。目前,本信託預期損失的風險是很小的。

#### 2. 實益權益股份

截至 2023 年 10 月 31 日,本基金授權發行無數量管制的股份(無股票面值)。本基金股份的交 易如下表:

#### 3. 與關係企業的交易

富蘭克林公司作為控股公司,與其各附屬公司合稱為富蘭克林坦伯頓基金集團。本基金的部 分主管與董事也是下列附屬公司的主管以及/或是董事:

附屬公司	與本基金的關係
Franklin Mutual Advisers, LLC (Franklin Mutual)	投資經理公司
Franklin Templeton Services, LLC (FT Services)	行政經理公司
Franklin Distributors, LLC (Distributors)	主辨承銷商
Franklin Templeton Investor Services, LLC (Investor Services)	股務代理機構

3. 與關係企業的交易(承續前文)

#### a. 管理費用

本基金按基金的平均每日淨資產,其每日計算,按月支付 Franklin Mutual 的投資管理費用,詳 如下表所示:

年化費率	净資產
0.625%	不超過(含)一億美元
0.500%	超過一億美元,不超過(含)二億五千萬美元
0.450%	超過二億五千萬美元,不超過(含)七十五億美元

0.420%	超過一百二十五億美元,不超過(含)一百五十億美元
0.400%	超過一百五十億美元
截至 2023 年 10 月 31 日,	有效年化投資管理費率為基金平均每日淨資產的 0.482%。

b. 行政費用

根據與 Franklin Mutual 的協定, FT Services 為本基金提供行政管理服務。此費用由 Franklin Mutual 根據平均每日淨資產支付,並不是本基金的額外費用。

#### C. 配銷費用

除了 R6 股及 Advisor 股以外,本基金董事會遵循美國 1940 年投資公司法案的規則 12b-1,對於 各股皆採用配銷計劃。配銷費用在本基金 A 股的償還配銷計劃下,每年本基金將向 Distributors 償付不超過 A 股的最高年度計劃費率的費用,用以彌補其銷售與配銷本基金股份所帶來的費 用。在 A 股的償還配銷計劃下,當期計劃年度的費用超出最高償還額度的部分不會在後續期 間得到償還。此外,在本基金 C 股及 R 股的補償配銷計劃下,每年本基金將向 Distributors 支 付不超過各股的最高年度計劃費率的費用,用以彌補其服務、銷售與配銷本基金股份所招致 的費用。為監控最高年度計劃費率之遵循情形,該計劃年度為 2 月 1 日至 1 月 31 日的整個期 間。

按本基金的平均每日淨資產的特定比例,各股的最高年度計劃費率列示如下:

A股	0.25%
C 股	1.00%
R股	0.50%

#### d. 銷售手續費/承銷合約

前收型銷售手續費以及或有遞延銷售手續費(CDSC)不是本基金的費用。這些手續費在投資 之前就從基金股份銷售款項中扣除,或是在贖回收益匯出之前被扣除(若適用)。承銷商 (Distributors)已告知本基金下列有關本期間基金股份銷售與贖回的交易佣金:

扣除支付給非關係企業的交易商/經紀商佣金後的銷售手續費	\$ 38,578
保留的或有遞延銷售手續費	\$ 6,646

#### e. 股務代理機構費用

每個基金股份為 Investor Services 對股東服務範圍的績效支付股務代理機構費用,每月計算並 按月支付。自 2023 年 10 月 1 日起, Investor Services 的費用將依固定利潤獲取並將依據基金 的相關資產及交易做配置。在 2023 年 10 月 1 日前,費用則是根據 0.016%的年化資產基礎費 用加上交易基礎費用。此外,除了 R6 股,每個股份償付 Investor Services 產生的墊付款項以及

第9頁/共14頁

### 3. 與關係企業的交易(承續前文)

#### e. 股務代理機構費用(承續前文)

支付予第三方的股東服務費用。這些支付予第三方的費用將以各個股份淨資產的相對比例為 基礎每日累積並配置於各該股份。R6 股僅對該股支付 Investor Services 股務代理機構費用,依 其具體分配給 R6 股的相關資產及相關交易。

在截至 2023 年 10 月 31 日止之年度內,本基金支付股務代理機構的費用已標示於經營業績表中,其中支付投資者服務(Investor Services)的金額為\$361,221。

#### f. 投資於關係企業管理投資公司

某些或全部基金投資於一個或多個關係企業管理投資公司。根據 1940 年法案的定義,當基 金直接或間接擁有附屬基金 25% 或更多的已發行股份或有權對管理行使控制權時,該投資被 視為基金的「控制關係企業」。本基金的投資目的不是對管理或政策施加控制影響。本基金可 減免投資於關係企業管理投資公司的資產所對應的管理費用已標示於經營業績表中,但金額 不超過每一個關係企業直接或間接所支付的管理費用和行政費用。在截至 2023 年 10 月 31 日 止之年度,本基金投資在關係企業管理投資公司明細如下:

	期初 價值	申購	銷售	已實現利 得(虧損)	未實現溢價 (折價)淨變動	期末 價值	期末 持有股數	投資收益
非控制關係上市 公司 Institutional Fiduciary								股利

#### g. 免除與費用償還

R6 級別的股務代理費用已設定上限,所以 R6 股的股務代理機構費用將不會超過該級別的平均淨資產的 0.03%, 直到 2024 年 2 月 29 日。

#### 4. 費用抵銷約定

本基金先前已與保管機構簽訂合約,將未投資的現金部分所獲得的收益用以抵償本基金的部 分保管機構費用。截至2023年10月31日止之年度內,調降之保管機構費用已列示於經營業 績表。自2023年9月21日起生效,本基金獲得的信用餘額(若有的話),將被確認為收益。

#### 5. 所得稅

在截至 2023 年與 2022 年 10 月 31 日止會計年度內已支付的配息之稅賦性質如下表所示:

	2023	2022
所支付之配息來自:

未實現折價	(52,055,206)
淨未實現溢價(折價)	\$27,600,038
可分配收益:	
未分配一般收入	\$7,330,271
未分配長期資本利得	\$8,420,848
可分配盈餘	\$15,751,119

收益以及/或是資本利得在帳面基礎與稅賦基礎上有所不同,主要是因為對沖銷性交易的處理 不同而影響分配的特性所致。

本基金利用税務會計實務處理部分從股本贖回款的收益作為已實現資本利得分配。

#### 6. 投資交易

截至 2023 年 10 月 31 日止之年度内買入與賣出(不包括短期證券)的交易額分別為 480,221,740 美元及 542,183,116 美元。

#### 7. (略)

#### 8. 信用工具

本基金與富蘭克林坦伯頓基金集團所管理的其他美國註冊以及外國投資基金(全體地,以下稱「全體借用人」)共同簽定一項於2024年2月2日到期之貸款總額為26.75億美元的優先無 擔保聯合全球信用貸款(以下稱「全球信用工具」)。全球信用工具為一項資金來源,以提供 予全體借用人因應其暫時與緊急目的,包括有能力去應付未來無預期或不尋常的大量贖回需 求。

依據全球信用工具條款,本基金除了應負擔所動用任何貸款的利息,以及由本基金所產生的 其他成本之外,尚須依據本基金佔全體借用人淨資產總額的相對持份比例,分攤履行及維持 全球信用工具所產生的費用及支出,包括全球信用工具未使用部分的0.15%年度承諾費用。該 費用已反映於經營業績表的其他費用中。截至2023年10月31日止,本基金並未使用全球信用工 具貸款。

#### 公平價值衡量

本基金採用公平價值的等級,其係用來區別從獨立來源所取得的市場資料(可觀察信息)與基金 自行的市場假設(不可觀察信息)。這些信息被用於決定基金投資的價值,並得概述於以下之公 平價值的等級:

- 等級1-用同一證券的現行活躍市場報價
- 等級2-其他重要的明顯信息(包括對於相類似證券的報價、利率、預付款項速度及信用風 險等)
- 等級3-重要的不可觀察信息(包括基金以自行假設決定投資的公平價值)

9. 公平價值衡量(承續前文)

用以評價證券的信息或方法,並非暗示與投資該證券有關的風險或流動性。

以下為截至2023年10月31日止,評估本基金資產之公平價值所採納的信息之等級概要:

# Franklin MicroCap Value Fund

### **Fund Overview**

#### Q. What is the Fund's investment strategy?

A. Our strategy is to buy shares of companies that we believe are undervalued at the time of purchase and have the potential for capital appreciation. The types of companies the Fund may invest in include, among other things, those that may be considered out of favor due to actual or perceived cyclical or secular challenges, or are experiencing temporary setbacks, diminished expectations, mismanagement or undermanagement, or are financially stressed. Environmental, social and governance (ESG) related assessments of companies may be considered. In choosing investments, we conduct an in-depth analysis of a company's long-term or normalized earnings and free cash flow potential, quality of management, ownership of valuable franchises, trademarks or trade names, control of distribution networks, underutilized assets and market share for particular products, balance sheet, and other factors that may identify the issuer as a potential investment. The investment manager considers selling a security when it no longer meets its value criteria.

# Q. What were the overall market conditions during the Fund's reporting period?

**A.** Over the 12-month period, microcap value stocks struggled versus their large-, mid- and small-cap counterparts against a backdrop of rising inflation, significant interest rate hikes, strong consumer spending and periodic economic shocks.

Substantial inflationary pressure affected much of the 12-month reporting period, as consumers spent higher wages and pandemic-era savings on goods and services. The U.S. Federal Reserve (Fed) hiked interest rates at a steady clip throughout much of the year in an effort to rein in spending. Investor concerns over the rate hikes' effects on economic growth periodically affected market sentiment. In March 2023, markets were roiled by instability within the banking sector, as rising rates and falling deposit levels affected the health of some institutions. A lack of banking sector contagion, continued positive economic data and strong corporate earnings led to a sanguine period for markets in early- and mid-summer 2023, until volatility reentered the picture in August.

Near the end of the period, inflation eased from its highs. An employed consumer currently continues to spend, but pandemic-era consumer savings reserves are steadily dwindling, and measures of credit utilization are climbing, potentially setting the stage for future financial stress. In August, Fed Chairman Jerome Powell said that rate decisions would be made on a meeting-by-meeting basis, acknowledging the strength yet uncertainty present in the economy. The Fed held rates steady through the end of the period. Investors are looking for continued signs of a soft landing balanced with the reality that interest rates may be higher for longer than originally anticipated.

# Q. How did we respond to these changing market conditions?

**A.** Over the last year, we have been positioning the portfolio in response to wide share price dispersion by incrementally purchasing shares in companies that are trading at depressed levels and could materially benefit from future developments including improved growth prospects, stable to lower interest rates, reduced input costs or increased labor availability. Conversely, we are also aware conditions could deteriorate even further. Given this environment, we are being mindful of position sizes for these types of companies until things become clearer.

In the near term, we expect market activity and volatility levels to be influenced by developments around geopolitical events, inflation concerns and central bank activity. Regardless of these factors, we remain focused on identifying opportunities to improve the quality of our positions at relatively attractive valuations. We will continue to follow our process of targeting historically successful companies, with understandable business models, good corporate governance and low debt, that we view as temporarily trading at depressed levels, relative to future earnings power. We believe this investment approach constitutes our competitive advantage and may provide meaningful upside potential and possible downside risk management during turbulent periods.

### Performance Overview

The Fund's Class A shares posted a -0.71% cumulative total return for the 12 months under review. In comparison, the Russell 2000<sup>®</sup> Value Index, which measures the performance of those Russell 2000<sup>®</sup> Index companies with relatively lower price-to-book ratios and lower forecasted growth rates, posted a -9.93% cumulative total return for the same period.<sup>1</sup> You can find more of the Fund's performance data in the Performance Summary beginning on page 6.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to **franklintempleton.com** or call **(800) 342-5236**.

#### Q. What were the leading contributors to performance?

A. Sterling Infrastructure boosted relative returns, after reporting strong sales in its e-infrastructure and building solutions businesses. It also saw solid demand trends in its transportation business. Additionally, Sterling recently posted record bookings for the e-infrastructure business. As a result of the strong trends, Sterling raised its fullyear guidance. Matrix Service was a contributor to relative performance. The company, which provides engineering, fabrication, construction, and maintenance services to support critical energy infrastructure and industrial markets, has seen strong project awards in recent quarters, which should boost its revenue growth over the coming quarters, in our view. Elsewhere, Daktronics, which makes electronic display systems, contributed to relative returns, following upbeat financial results. Revenues were up sharply, supported by strong backlog conversion, supply chain stabilization and better manufacturing capacity. Pricing increases, supply chain improvements, and production and inventory management also bolstered margins. Looking ahead, Daktronics expects to benefit from greater production capacity, investments in factory automation, better labor availability and reduced supply chain disruptions.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Schedule of Investments (SOI). The SOI begins on page 27.

Q. What were the leading detractors from performance? A. Investar Holdings, a commercial bank focused on South Louisiana, curbed relative results as the run on deposits at a larger bank spooked investors across the banking system earlier in the reporting period. Additionally, the bank has recently reported a decline in its net interest margin, as funding costs increased more than the increase in the yield of its interest-earning assets. Bank Peapack-Gladstone Financial was also a detractor. Clients moved money out of their non-interest-bearing accounts earlier in the year in favor of higher yielding deposit accounts. Later in the reporting period, Peapack-Gladstone saw credit worsen and nonperforming loans rise as two freight companies struggled amid a downturn due to a supply and demand imbalance. We expect these challenges to abate over time, and for the bank's deposit business to stabilize. Outside financials, Shyft Group, which assembles specialty commercial and recreational vehicles, hindered relative results over the period. The demand environment has been more difficult, particularly as last-mile customers deferred or canceled orders and the recreational vehicle market has remained weak resulting in soft demand for motorhome chassis. Shyft Group expects the environment to remain weak, over the next few guarters as dealers clear current inventories.

Thank you for your participation in Franklin MicroCap Value Fund. We look forward to continuing to serve your investment needs.

# Performance Summary as of October 31, 2023

The performance table and graphs do not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses of each class. Capital gain distributions are net profits realized from the sale of portfolio securities.

### Performance as of 10/31/231

Cumulative total return excludes sales charges. Average annual total return includes maximum sales charges. Sales charges will vary depending on the size of the investment and the class of share purchased. The maximum is 5.50% and the minimum is 0%. Class A: 5.50% maximum initial sales charge; Advisor Class: no sales charges. For other share classes, visit franklintempleton.com.

Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. Small- and mid-cap stocks involve greater risks and volatility than large-cap stocks. International investments are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in emerging markets. The investment style may become out of favor, which may have a negative impact on performance. The manager may consider environmental, social and governance (ESG) criteria in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the Fund's prospectus.

1. Gross expenses are the Fund's total annual operating expenses as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns. Net expenses reflect contractual fee waivers, expense caps and/or reimbursements, which cannot be terminated prior to 02/29/2024 without Board consent. Additional amounts may be voluntarily waived and/or reimbursed and may be modified or discontinued at any time without notice.

2. Cumulative total return represents the change in value of an investment over the periods indicated.

3. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.

4. Prior to 9/10/18, these shares were offered at a higher initial sales charge of 5.75%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 5.50%.

5. Source: FactSet. The Russell 2000<sup>®</sup> Value Index is market capitalization weighted and measures the performance of those Russell 2000<sup>®</sup> Index companies with relatively lower price-to-book ratios and lower forecasted growth rates.

6. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. See www.franklintempletondatasources.com for additional data provider information.

# Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

### Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then \$8,600 ÷ \$1,000 = 8.6*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then 8.6 x \$7.50 = \$64.50*). In this illustration, the actual expenses paid this period are \$64.50.

### Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

			tual after expenses)		thetical n before expenses)

Advisor	\$1,000	\$1,032.40	\$4.97	\$1,020.31	\$4.94	0.97%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 184/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

# Franklin Mutual U.S. Mid Cap Value Fund

### Fund Overview

#### Q. What is the Fund's investment strategy?

**A.** We employ a research driven, fundamental value strategy for the Fund and select investments based on our own evaluation of the security's fundamental value, including for equity securities, an analysis of the cash flow potential, long-term earnings, multiples of earnings and book value. We examine each investment separately and there are no set criteria as to specific value parameters, earnings or industry type. Environmental, social and governance (ESG) related assessments of companies are also considered.

# Q. What were the overall market conditions during the Fund's reporting period?

**A.** Substantial inflationary pressure affected much of the 12-month reporting period, as consumers spent higher wages and pandemic-era savings on goods and services. The U.S. Federal Reserve (Fed) hiked interest rates at a steady clip throughout much of the year in an effort to rein in spending. Investor concerns over the rate hikes' effects on economic growth periodically affected market sentiment. In March, markets were roiled by instability within the banking sector, as rising rates and falling deposit levels affected the health of some institutions. A lack of banking sector contagion, continued positive economic data and strong corporate earnings led to a sanguine period for markets in early- and mid-summer 2023, until volatility re-entered the picture in August.

Near the end of the period, inflation eased from its highs. An employed consumer currently continues to spend, but pandemic-era consumer savings reserves are steadily dwindling, and measures of credit utilization are climbing, potentially setting the stage for future financial stress. In August, Fed Chairman Jerome Powell said that rate decisions would be made on a meeting-by-meeting basis, acknowledging the strength yet uncertainty present in the economy. The Fed held rates steady through the end of the period. Investors are looking for continued signs of a soft landing balanced with the reality that interest rates may be higher for longer than originally anticipated.

From a global perspective, the European economy is constrained by a combination of high inflation and high interest rates and consumers are pulling back on their spending. In September, eurozone composite PMI was in contraction territory for the fourth straight month. The European Union recently reduced its forecast for this and next year's economic growth. In China, weak demand continues to weigh on the economy, while ongoing real estate difficulties are eroding investor sentiment and growth outlooks. The recent attack on Israel and resulting war has added another factor to the complicated global economic picture. Although we primarily invest in U.S. companies and do not make investment decisions based on macroeconomic events, we continue to monitor events affecting the global investment and economic climate.

# Q. How did we respond to these changing market conditions?

**A.** Throughout the last year, we have continued to view the current environment as a truly fundamentally driven stock picking market. As bottom-up investors, we look for market dislocations to provide us with opportunities to buy overly discounted securities. In addition, we believe that plateauing interest rates will be helpful to corporations as they prioritize how to deploy capital. We expect steadier rates to stimulate merger activity and initial public offerings as investors can anchor around a firmer discount rate.

We remain focused on identifying opportunities to acquire stocks at attractive valuations based upon our assessment of fundamental value, while taking advantage of volatility. Our process of finding underappreciated and misunderstood companies with identifiable catalysts to unlock shareholder value may provide meaningful upside potential and possible downside risk management during turbulent periods. While unnerving, volatility remains an inherent part of investing in risk assets, and the market historically rewards investors who take an opportunistic long-term perspective.

Q. What were the leading contributors to performance?

A. Flex, a contract manufacturer, supported relative results despite concerns about slowing demand for its IT infrastructure and cloud businesses. The company also announced a tax-free spin of its listed solar subsidiary (Nextracker) which helps unlock value for shareholders. Although the macroeconomic environment remains difficult, we expect Flex to demonstrate resilience in earnings power supported by a rising mix of long-cycle businesses such as autos and health care. U.S. homebuilder DR Horton contributed to relative performance, following strong earnings and growing optimism about the industry's financial results. DR Horton's recent financial results have been strong despite the higher mortgage rate environment. Onto Innovation is a provider of metrology and inspection tools for the semiconductor industry. The shares contributed to results for the period as the company is expected to be a prime beneficiary of semiconductor equipment spending leveraged towards the next generation of chip architecture. Further, the end markets targeted by the company are expected to grow faster than the overall spending on wafer fab equipment.

Q. What were the leading detractors from performance?

A. SVB Financial, a U.S.-based bank, detracted from relative returns after being seized by regulators. The bank suffered from a rapid run on its deposits in March 2023 in the wake of its attempt to raise capital following losses on the sale of its U.S. Treasuries portfolio. We exited the position during the period. Citizens Financial Group, a U.S.-based bank, detracted from relative results following the collapse of SVB Financial and resulting stresses in the broader banking system. Recent financial results have also been weak. Net interest income and net interest margins remain under pressure. Elsewhere, utility AES was a detractor, as higher interest rates have made bonds more attractive relative to high dividend paying sectors like utilities. Nonetheless, second-quarter results were largely positive, and the company expects a pickup in growth later in the year as it benefits from investments in renewable power generation.

# Q. Were there any significant changes to the Fund during the reporting period?

**A.** During the year, we pared back on some of our names which had above average financial leverage, mindful that we might be in a period of higher interest rates for longer than initially expected.

Thank you for your participation in Franklin Mutual U.S. Mid Cap Value Fund. We look forward to continuing to serve your investment needs.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. The investment style may become out of favor, which may have a negative impact on performance. Small- and mid-cap stocks involve greater risks and volatility than large-cap stocks. International investments are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in emerging markets. The manager may consider environmental, social and governance (ESG) criteria in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the Fund's prospectus.

1. Gross expenses are the Fund's total annual operating expenses as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns. Net expenses reflect contractual fee waivers, expense caps and/or reimbursements, which cannot be terminated prior to 2/29/2024 without Board consent. Additional amounts may be voluntarily waived and/or reimbursed and may be modified or discontinued at any time without notice.

2. Cumulative total return represents the change in value of an investment over the periods indicated.

3. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.

4. Prior to 9/10/18, these shares were offered at a higher initial sales charge of 5.75%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 5.50%.

5. Source: FactSet. The Russell Midcap<sup>®</sup> Value Index is market capitalization weighted and measures the performance of those Russell Midcap<sup>®</sup> Index companies with relatively lower price-to-book ratios and lower forecasted growth rates.

6. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. See www.franklintempletondatasources.com for additional data provider information.

# Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

### Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then \$8,600 ÷ \$1,000 = 8.6*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then 8.6 x \$7.50 = \$64.50*). In this illustration, the actual expenses paid this period are \$64.50.

### Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

		Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		
Share Class	Beginning Account Value 5/1/23	Ending Account Value 10/31/23	Expenses Paid During Period 5/1/23–10/31/23 <sup>1,2</sup>	Ending Account Value 10/31/23	Expenses Paid During Period 5/1/23–10/31/23 <sup>1,2</sup>	Net Annualized Expense Ratio <sup>2</sup>
А	\$1,000	\$946.00	\$4.28	\$1,020.81	\$4.44	0.87%
С	\$1,000	\$942.60	\$7.94	\$1,017.04	\$8.24	1.62%
R	\$1,000	\$944.70	\$5.50	\$1,019.55	\$5.71	1.12%
R6	\$1,000	\$947.60	\$2.60	\$1,022.54	\$2.70	0.53%
Advisor	\$1,000	\$947.20	\$3.05	\$1,022.07	\$3.17	0.62%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 184/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

# Franklin Small Cap Value Fund

### **Fund Overview**

The Fund is currently closed to new investors with limited exceptions. Existing investors may continue to purchase additional shares of the Fund, please see the Fund's prospectus for additional information.

#### Q. What is the Fund's investment strategy?

A. The Fund generally invests in equity securities, predominantly common stocks of small cap companies, that we believe are undervalued at the time of purchase and have the potential for capital appreciation. A stock is undervalued when it trades at less than the price at which we believe it would trade if the market reflected all factors relating to the company's worth. Following this strategy, the Fund invests in companies that we believe have, for example: stock prices that are low relative to current, or historical or future earnings, book value, cash flow or sales; recent sharp price declines but the potential for good long-term earnings prospects; and valuable intangibles not reflected in the stock price. The types of companies the Fund may invest in include those that may be considered out of favor due to actual or perceived cyclical or secular challenges, or are experiencing temporary setbacks, diminished expectations, mismanagement or undermanagement. or are financially stressed. Environmental, social and governance (ESG) related assessments of companies are also considered.

# Q. What were the overall market conditions during the Fund's reporting period?

**A.** Over the 12-month period, small-cap value stocks struggled versus their large- and mid-cap counterparts against a backdrop of rising inflation, significant interest rate hikes, strong consumer spending and periodic economic shocks.

Substantial inflationary pressure affected much of the 12-month reporting period, as consumers spent higher wages and pandemic-era savings on goods and services. The U.S. Federal Reserve (Fed) hiked interest rates at a steady clip throughout much of the year in an effort to rein in spending. Investor concerns over the rate hikes' effects on economic growth periodically affected market sentiment. In March 2023, markets were roiled by instability within the banking sector, as rising rates and falling deposit levels affected the health of some institutions. A lack of banking sector contagion, continued positive economic data and strong corporate earnings led to a sanguine period for markets in early- and mid-summer 2023, until volatility reentered the picture in August.

Near the end of the period, inflation eased from its highs. An employed consumer currently continues to spend, but pandemic-era consumer savings reserves are steadily dwindling, and measures of credit utilization are climbing, potentially setting the stage for future financial stress. In August, Fed Chairman Jerome Powell said that rate decisions would be made on a meeting-by-meeting basis, acknowledging the strength yet uncertainty present in the economy. The Fed held rates steady through the end of the period. Investors are looking for continued signs of a soft landing balanced with the reality that interest rates may be higher for longer than originally anticipated.

When measured relative to large-cap companies, profitable small-cap companies are still trading near their lowest valuations in 20 years. We think this reflects concerns over stubbornly high interest rates and the potential ongoing impact on economic growth.

# **Q.** How did we respond to these changing market condition?

**A.** Over the last year, we have been positioning the portfolio in response to wide share price dispersion by incrementally purchasing shares in companies that are trading at depressed levels and could materially benefit from future developments including improved growth prospects, stable to lower interest rates, reduced input costs or increased labor availability. Conversely, we are also aware conditions could deteriorate even further. Given this environment, we are being mindful of position sizes for these types of companies until things become clearer.

In the near term, we expect market activity and volatility levels to be influenced by developments around geopolitical events, inflation concerns and central bank activity. Regardless of these factors, we remain focused on identifying opportunities to improve the quality of our positions at relatively attractive valuations. We will continue to follow our process of targeting historically successful companies with understandable business models, good corporate governance and low debt, that we view as temporarily trading at depressed levels, relative to future earnings power. We believe this investment approach constitutes our competitive advantage and may provide meaningful upside potential and possible downside risk management during turbulent periods.

#### Q. What were the leading contributors to performance?

**A.** TechnipFMC, an oilfield equipment and services company, contributed to relative performance, driven by better-than-expected quarterly results, an increase in oil prices, continued strength in offshore order inflow, and

visibility on an improving industry order pipeline. Additionally, TechnipFMC restarted its quarterly dividend and expanded its share repurchase program.

Glanbia, an international consumer foods and nutritional products company, contributed to results during the period after reporting better-than-expected earnings and announcing the divestiture of a joint venture at an attractive valuation as it takes steps to simplify its business. The company's initial fiscal 2023 guidance also suggested margins should expand as it laps significant raw material inflation in its key inputs. We remain positive on the company's growth prospects in the growing sports nutrition space, and on the margin recapture opportunity.

Shares of UFP Industries outperformed during the period. Despite headwinds from lumber price deflation, the company posted its seventh consecutive quarter of doubledigit EBITDA margins and management reiterated their confidence in maintaining the margin above 10% in the future. UFP has historically not purchased large amounts of its own stock, but as cash on the balance sheet continues to grow, the company has become more active.

Q. What were the leading detractors from performance?

**A.** First Interstate Bank, a regional bank with a footprint in the western U.S., detracted from performance during the period as two mid-sized banks failed in early 2023 due to deposit runs which heightened investor concerns regarding banking sector capital and liquidity. Additionally, First Interstate's first-quarter results were negatively impacted by funding costs that rose faster than its asset yields, putting pressure on its net interest income outlook. While First Interstate's near-term earnings power has been negatively impacted by the current yield curve, the bank remains well capitalized and has sufficient liquidity options to cover its uninsured deposit base and expected deposit outflows.

Envista, a manufacturer of dental products, detracted as its first-quarter results came weaker than Street expectations. This was due to weakness in China and Russia as well as weaker demand for big ticket imaging capital equipment. However, management reiterated full-year 2023 guidance on expectations of accelerating growth and improvements in its operating margin through 2023. Overall, we believe that the company is transforming its portfolio towards highergrowth, higher-margin products, while remaining focused on continuously improving its operating performance.

Shares of Clearfield, a manufacturer of fiber optic connectivity and management solutions, contracted during the period. We believe the near-term outlook remains challenging due to inventory digestion and a low level of customer capital expenditure. Margins are also expected to contract due to the low utilization rate. Contribution from major government subsidies for broadband access equipment likely won't begin until the second half of 2024.

# Q. Were there any significant changes to the Fund during the reporting period?

**A.** While we did not make changes to our investment philosophy during the period, we did identify some opportunities presented by the market environment. First, our allocation to the financials sector saw a net decrease during the 12-month period, primarily due to our positions within the banking industry. After banking sector turmoil caused stock prices to fall in March, however, we began to focus our attention in this area. As valuations meaningfully improved and sentiment deteriorated, we were able to identify several quality names in the banking sector, increasing our overall exposure. In addition, we added to consumer discretionary companies during the year, particularly within the leisure products industry, where we identified quality names at depressed valuations.

#### Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. Small- and mid-cap stocks involve greater risks and volatility than large-cap stocks. The investment style may become out of favor, which may have a negative impact on performance. International investments are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in emerging markets. Real estate investment trusts (REITs) are closely linked to the performance of the real estate markets. REITs are subject to illiquidity, credit and interest rate risks, and risks associated with small- and mid-cap investments. The manager may consider environmental, social and governance (ESG) criteria in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the Fund's prospectus.

1. The total annual operating expenses are as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns.

2. Cumulative total return represents the change in value of an investment over the periods indicated.

3. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.

4. Prior to 9/10/18, these shares were offered at a higher initial sales charge of 5.75%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 5.50%.

5. Source: FactSet. The Russell 2000<sup>®</sup> Value Index is market capitalization weighted and measures the performance of those Russell 2000<sup>®</sup> Index companies with relatively lower price-to-book ratios and lower forecasted growth rates.

6. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. See www.franklintempletondatasources.com for additional data provider information.

# Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

## Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then \$8,600 ÷ \$1,000 = 8.6*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then 8.6 x \$7.50 = \$64.50*). In this illustration, the actual expenses paid this period are \$64.50.

## Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 184/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

# Notes to Financial Statements

## 1. Organization and Significant Accounting Policies

Franklin Value Investors Trust (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an openend management investment company, consisting of three separate funds (Funds). The Funds follow the accounting and reporting guidance in Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, Financial Services - Investment Companies (ASC 946) and apply the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP), including, but not limited to, ASC 946. The classes of shares offered within each of the Funds are indicated below. Class C shares automatically convert to Class A shares on a monthly basis, after they have been held for 8 years. Each class of shares may differ by its initial sales load, contingent deferred sales charges, voting rights on matters affecting a single class, its exchange privilege and fees due to differing arrangements for distribution and transfer agent fees.

The following summarizes the Funds' significant accounting policies.

#### a. Financial Instrument Valuation

The Funds' investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Funds calculate the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Board has designated the Funds' investment manager as the valuation designee and has responsibility for oversight of valuation. The investment manager is assisted by the Funds' administrator in performing this responsibility, including leading the crossfunctional Valuation Committee (VC). The Funds may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Investments in open-end mutual funds are valued at the closing NAV.

The Funds have procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Funds primarily employ a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Funds' business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Funds' portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for

these differences, an independent pricing service may be used to adjust the value of the Funds' portfolio securities to the latest indications of fair value at 4 p.m. Eastern time. At October 31, 2023, certain securities may have been fair valued using these procedures, in which case the securities were categorized as Level 2 within the fair value hierarchy (referred to as "market level fair value"). See the Fair Value Measurements note for more information.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Funds' NAV is not calculated, which could result in differences between the value of the Funds' portfolio securities on the last business day and the last calendar day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Funds for financial reporting purposes.

#### b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Funds may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Funds do not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Statements of Operations. Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

#### c. Income and Deferred Taxes

It is each Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. Each Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Funds may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which the Funds invest. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Funds invest. When a capital gain tax is determined to apply, certain or all Funds record an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

Each Fund may recognize an income tax liability related to its uncertain tax positions under U.S. GAAP when the uncertain tax position has a less than 50% probability that it will be sustained upon examination by the tax authorities based on its technical merits. As of October 31, 2023, each Fund has determined that no tax liability is required in its financial statements related to uncertain tax positions for any open tax years (or expected to be taken in future tax years). Open tax years are those that remain subject to examination and are based on the statute of limitations in each jurisdiction in which the Fund invests.

# d. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Dividend

# 1. Organization and Significant Accounting Policies (continued)

# d. Security Transactions, Investment Income, Expenses and Distributions (continued)

income is recorded on the ex-dividend date except for certain dividends from securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Funds. Distributions to shareholders are recorded on the exdividend date. Distributable earnings are determined according to income tax regulations (tax basis) and may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the Funds based on the ratio of net assets of each Fund to the combined net assets of the Trust or based on the ratio of number of shareholders of each Fund to the combined number of shareholders of the Trust. Fund specific expenses are charged directly to the Fund that incurred the expense.

Realized and unrealized gains and losses and net investment income, excluding class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

#### e. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

#### f. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Funds, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

### f. Investments in Affiliated Management Investment Companies

Certain or all Funds invest in one or more affiliated management investment companies. As defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated fund's outstanding shares or has the power to exercise control over management or policies of such fund. The Funds do not invest for purposes of exercising a controlling influence over the management or policies. Management fees paid by the Funds are waived on assets invested in the affiliated management investment companies, as noted in the Statements of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by each affiliate. During the year ended October 31, 2023, investments in affiliated management investment companies were as follows:

### g. Waiver and Expense Reimbursements

Transfer agent fees on Class R6 shares of the Funds have been capped so that transfer agent fees for that class do not exceed 0.03% based on the average net assets of the class until February 29, 2024.

### 4. Expense Offset Arrangement

The Funds have previously entered into an arrangement with their custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Funds' custodian expenses. During the year ended October 31, 2023, the custodian fees were reduced as noted in the Statements of Operations. For Franklin MicroCap Value Fund and Franklin Small Cap Value Fund, effective July 10, 2023, earned credits, if any, will be recognized as income. For Franklin Mutual U.S. Mid Cap Value Fund, effective September 21, 2023, earned credits, if any, will be recognized as income.

### 5. Income Taxes

The tax character of distributions paid during the years ended October 31, 2023 and 2022, was as follows:

	Franklin MicroCap Value Fund		Franklin Mutual U.S. Mid Cap V Fund	
	2023	2022	2023	2022
Distributions paid from:				
Ordinary income	\$1,287,244	\$3,689,425	\$8,227,494	\$10,073,617
Long term capital gain	11,647,510	26,122,385	25,969,807	100,984,572
—	\$12,934,754	\$29,811,810	\$34,197,301	\$111,058,189

	Franklin Small Cap Value Fund		
	2023	2022	
Distributions paid from:			
Ordinary income	\$23,113,823	\$235,196,624	
Long term capital gain	106,972,379	205,993,248	
	\$130,086,202	\$441,189,872	

At October 31, 2023, the cost of investments, net unrealized appreciation (depreciation), undistributed ordinary income and undistributed long term capital gains for income tax purposes were as follows:

	Franklin MicroCap Value Fund	Franklin Mutual U.S. Mid Cap Value Fund	Franklin Small Cap Value Fund
Cost of investments	\$150,342,908	\$674,610,239	\$3,700,838,074
Unrealized appreciation	\$54,913,523	\$79,655,244	\$419,286,012
Unrealized depreciation.	(13,439,396)	(52,055,206)	(454,512,478)
Net unrealized appreciation (depreciation)	\$41,474,127	\$27,600,038	\$(35,226,466)
Distributable earnings:			
Undistributed ordinary income	\$1,501,584	\$7,330,271	\$90,465,370
Undistributed long term capital gains	\$9,413,056	\$8,420,848	\$80,839,631
Total distributable earnings	\$10,914,640	\$15,751,119	\$171,305,001

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatments of wash sales.

The Funds utilized a tax accounting practice to treat a portion of the proceeds from capital shares redeemed as a distribution from net investment income and realized capital gains.

### 6. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the year ended October 31, 2023, were as follows:

	Franklin MicroCap Value Fund	Franklin Mutual U.S. Mid Cap Value Fund	Franklin Small Cap Value Fund
Purchases	\$70,284,308	\$480,221,740	\$2,734,283,260
Sales	\$73,886,882	\$542,183,116	\$2,956,364,336

### 7. Holdings of 5% Voting Securities of Portfolio Companies

The 1940 Act defines "affiliated companies" to include investments in portfolio companies in which a fund owns 5% or more of the outstanding voting securities. Additionally, as defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated companies' outstanding shares or has the power to exercise control over management or policies of such company. During the year ended October 31, 2023, investments in "affiliated companies" were as follows:

	Value at Beginning of Year	Purchases	Sales	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Value at End of Year	Number of Shares Held at End of Year	Investment Income

### 8. Credit Facility

The Funds, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton, are borrowers in a joint syndicated senior unsecured credit facility totaling \$2.675 billion (Global Credit Facility) which matures on February 2, 2024. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Funds shall, in addition to interest charged on any borrowings made by the Funds and other costs incurred by the Funds, pay their share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon their relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.15% based upon the unused portion of the Global Credit Facility. These fees are reflected in other expenses in the Statements of Operations. During the year ended October 31, 2023, the Funds did not use the Global Credit Facility.

### 9. Fair Value Measurements

The Funds follow a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Funds' own market assumptions (unobservable inputs). These inputs are used in determining the value of the Funds' financial instruments and are summarized in the following fair value hierarchy:

- · Level 1 quoted prices in active markets for identical financial instruments
- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Funds' own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of October 31, 2023, in valuing the Funds' assets carried at fair value, is as follows:

### Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Franklin Value Investors Trust and Shareholders of Franklin MicroCap Value Fund, Franklin Mutual U.S. Mid Cap Value Fund, and Franklin Small Cap Value Fund:

### **Opinion on the Financial Statements**

We have audited the accompanying statements of assets and liabilities of Franklin Value Investors Trust (the "Trust") (comprising Franklin MicroCap Value Fund, Franklin Mutual U.S. Mid Cap Value Fund, and Franklin Small Cap Value Fund (collectively referred to as the "Funds")), including the schedules of investments, as of October 31, 2023, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising Franklin Value Investors Trust at October 31, 2023, the results of their operations for the year then ended, changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the five years in the period then unvestors Trust at October 31, 2023, the results of their operations for the year then ended, changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### **Basis for Opinion**

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2023, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more Franklin investment companies since 1987.

1. We base the number of portfolios on each separate series of the U.S. registered investment companies within the Franklin Templeton/Legg Mason fund complex. These portfolios have a common investment manager or affiliated investment managers.

2. Gregory E. Johnson is considered to be an interested person of the Fund under the federal securities laws due to his position as an officer and director of Franklin Resources, Inc. (Resources), which is the parent company of the Fund's investment manager and distributor.

3. Jennifer M. Johnson is considered to be an interested person of the Fund under the federal securities laws due to her position as an officer and director of Resources, which is the parent company of the Fund's investment manager and distributor.

The Sarbanes-Oxley Act of 2002 and Rules adopted by the U.S. Securities and Exchange Commission require the Fund to disclose whether the Fund's Audit Committee includes at least one member who is an audit committee financial expert within the meaning of such Act and Rules. The Fund's Board has determined that there is at least one such financial expert on the Audit Committee and has designated each of Ann Torre Bates and David W. Niemiec as an audit committee financial expert. The Board believes that Ms. Bates and Mr. Niemiec qualify as such an expert in view of their extensive business background and experience. Ms. Bates has served as a member of the Fund Audit Committee since 2015. She currently serves as a director of Ares Capital Corporation (2010-present) and United Natural Foods, Inc. (2013-present) and was formerly a director of Navient Corporation from 2014 to 2016, SLM Corporation from 1997 to 2014 and Allied Capital Corporation from 2003 to 2010, Executive Vice President and Chief Financial Officer of NHP Incorporated from 1995 to 1997 and Vice President and Treasurer of US Airways, Inc. until 1995. Mr. Niemiec has served as a member of the Fund Audit Committee since 2011, currently serves as an Advisor to Saratoga Partners and was formerly its Managing Director from 1998 to 2001 and serves as a director of Hess Midstream LP (2017-present). Mr. Niemiec was formerly a director of Emeritus Corporation from 1999 to 2010 and OSI Pharmaceuticals, Inc. from 2006 to 2010, Managing Director of SBC Warburg Dillon Read from 1997 to 1998, and was Vice Chairman from 1991 to 1997 and Chief Financial Officer from 1982 to 1997 of Dillon, Read & Co. Inc. As a result of such background and experience, the Board believes that Ms. Bates and Mr. Niemiec have each acquired an understanding of generally accepted accounting principles and financial statements, the general application of such principles in connection with the accounting estimates, accruals and reserves, and analyzing and evaluating financial statements that present a breadth and level of complexity of accounting issues generally comparable to those of the Fund, as well as an understanding of internal controls and procedures for financial reporting and an understanding of audit committee functions. Ms. Bates and Mr. Niemiec are independent Board members as that term is defined under the applicable U.S. Securities and Exchange Commission Rules and Releases.

### Board Approval of Investment Management Agreements FRANKLIN VALUE INVESTORS TRUST (EACH SERIES OF SUCH TRUST, A "FUND")

The Board of Trustees (Board), including a majority of trustees that are not "interested persons" as such term is defined in section 2(a)(19) of the Investment Company Act of 1940 (hereinafter referred to as "independent trustees"), at an in-person meeting held on May 23, 2023, unanimously approved the renewal of each Fund's investment management agreement. Prior to a meeting of all of the trustees for the purpose of considering such renewal, the independent trustees participated in two other meetings held in connection with the renewal process. Throughout the process, the independent trustees received assistance and advice from and met separately with independent counsel. The independent trustees met with and interviewed officers of the investment manager (including portfolio managers), the transfer agent and shareholder services group and the distributor. In approving the renewal of the investment management agreement for the Funds, the Board, including the independent trustees, determined that the investment management fee structure was fair and reasonable and that continuance of the agreement was in the best interests of each Fund and its shareholders.

In reaching their decision on the investment management agreement, the trustees took into account information furnished throughout the year at Board meetings, as well as information specifically requested and furnished for the renewal process, which culminated in the meetings referred to above for the specific purpose of considering such agreement. Information furnished throughout the year included, among others, reports on each Fund's investment performance, expenses, portfolio composition, portfolio brokerage execution, client commission arrangements, derivatives, securities lending, asset segregation, portfolio turnover, Rule 12b-1 plan, distribution, shareholder servicing, legal and compliance matters, pricing of securities, sales and redemptions, and marketing support payments made to financial intermediaries, as well as a third-party survey of transfer agent fees charged to funds within the Franklin Templeton (FT) complex in comparison with those charged to other fund complexes deemed comparable. Also, related financial statements and other information about the scope and quality of services provided by the investment manager and its affiliates and enhancements to such services over the past year were provided. In addition, the trustees received

periodic reports throughout the year and during the renewal process relating to compliance with the Funds' investment policies and restrictions. During the renewal process, the independent trustees considered the investment manager's methods of operation within the FT group and its activities on behalf of other clients. The Board also reviewed and considered an annual report on payments made by FT or the Funds to financial intermediaries, as well as a memorandum relating to third-party servicing arrangements.

The information obtained by the trustees during the renewal process also included a special report prepared by Broadridge Financial Solutions, Inc., an independent third-party analyst that utilizes data from Lipper, Inc. ("Lipper"), comparing each Fund's investment performance and expenses with those of other mutual funds deemed comparable to such Fund as selected by Lipper (Broadridge Section 15(c) Report). The trustees reviewed the Broadridge Section 15(c) Report and its usefulness in the renewal process with respect to matters such as comparative fees, expenses, expense ratios, performance and volatility. They concluded that the report continues to be a reliable resource in the performance of their duties.

In addition, the trustees received a Profitability Study (Profitability Study) prepared by management discussing the profitability to FT from its overall U.S. fund operations, as well as on an individual fund-by-fund basis. Over the past year, the Board and counsel to the independent trustees continued to receive reports on management's handling of recent regulatory inquiries and pending legal actions against the investment manager and its affiliates. The independent trustees were satisfied with the actions taken to date by management in response to such regulatory and legal matters.

The trustees reviewed the personnel, operations, financial condition, and investment management capabilities, methodologies and resources of the investment manager. As part of this review, particular attention was given to management's diligent risk management program, including continual monitoring and management of cybersecurity, liquidity and counterparty credit risk, and attention given to derivatives and other complex instruments that are held and expected to be held by each Fund and how such instruments are used to carry out each Fund's investment goal(s). The Board also took into account, among other things, management's efforts in establishing a global credit facility for the benefit of the Funds and other accounts managed by FT to provide a source of cash for temporary and emergency

purposes or to meet unusual redemption requests as well as the strong financial position of the investment manager's parent company and its commitment to the mutual fund business. The Board noted management's continuing efforts and expenditures in establishing effective business continuity plans and developing strategies to address areas of heightened concern in the mutual fund industry, such as cybersecurity and liquidity risk management. The Board also recognized management's commitment to facilitating Board oversight of particular areas, including derivatives and payments to intermediaries, by enhanced reporting.

In addition to the above and other matters considered by the trustees throughout the course of the year, the following discussion relates to certain primary factors relevant to the Board's decision. This discussion of the information and factors considered by the Board (including the information and factors discussed above) is not intended to be exhaustive, but rather summarizes certain factors considered by the Board. In view of the wide variety of factors considered, the Board did not, unless otherwise noted, find it practicable to quantify or otherwise assign relative weights to the foregoing factors. In addition, individual trustees may have assigned different weights to various factors.

NATURE, EXTENT AND QUALITY OF SERVICES. The trustees reviewed the nature, extent and quality of the services provided, and to be provided, by the investment manager. The trustees cited the investment manager's ability to implement each Fund's disciplined value investment approach and its long-term relationship with each Fund as reasons that shareholders choose to invest, and remain invested, in the Funds. The trustees reviewed each Fund's portfolio management team, including its performance, staffing, skills and compensation program. With respect to portfolio manager compensation, management assured the trustees that each Fund's long-term performance is a significant component of incentive-based compensation and noted that a portion of a portfolio manager's incentivebased compensation is paid in shares of pre-designated funds from the portfolio manager's fund management area. The trustees noted that the portfolio manager compensation program aligned the interests of the portfolio managers with that of shareholders of the Funds. The trustees discussed with management various other products, portfolios and entities that are advised by the investment manager and the allocation of assets and expenses among and within them, as well as their relative fees and reasons for differences with respect thereto and any potential conflicts. During regular Board meetings and the aforementioned meetings of the independent trustees, the trustees received reports and presentations on the investment manager's best execution

trading policies. The trustees considered periodic reports provided to them showing that the investment manager complied with the investment policies and restrictions of each Fund as well as other reports periodically furnished to the Board covering matters such as the compliance of portfolio managers and other management personnel with the code of ethics covering the investment management personnel, the adherence to fair value pricing procedures established by the Board and the accuracy of net asset value calculations. The Board noted the extent of the benefits provided to the Funds' shareholders from being part of the Franklin Templeton group of funds, including the right to exchange investments between funds (same class) without a sales charge, the ability to reinvest dividends from any of the Funds into other funds and the right to combine holdings of other funds to obtain reduced sales charges. The Board considered the investment manager's significant efforts in developing and implementing compliance procedures established in accordance with SEC and other requirements.

The Board considered the nature, extent and quality of the services to be provided under each Fund's other service agreements to determine that, on an overall basis, Fund shareholders were well served. In this connection, the Board also took into account transfer agent and shareholder services provided to the Funds' shareholders by an affiliate of the investment manager, and favorable periodic reports on shareholder services conducted by independent third parties. While such considerations directly affected the trustees' decision in renewing each Fund's transfer agent and shareholder services agreement, the Board also considered these commitments as incidental benefits to Fund shareholders deriving from the investment management relationship.

Based on their review, the trustees were satisfied with the nature and quality of the overall services provided, and to be provided, by the investment manager and its affiliates to each Fund and its shareholders and were confident in the abilities of the management team to continue the disciplined value investment approach of each Fund and to provide quality services to such Fund and its shareholders.

**INVESTMENT PERFORMANCE.** The trustees reviewed and placed significant emphasis on the investment performance of the Funds over the one-, three-, five- and 10-year periods ended December 31, 2022. They considered the history of performance of each Fund relative to various benchmarks. As part of their review, they inquired of management regarding benchmarks, style drift and restrictions on permitted investments. Consideration was also given to performance in the context of available levels of cash during the periods.

The trustees had meetings during the year, including the meetings referred to above held in connection with the renewal process, with each Fund's portfolio managers to discuss performance and the management of such Fund. In addition to the materials provided by management in connection with the renewal process, the independent trustees requested throughout the year (and received) additional presentations from the investment manager and senior management of FT regarding the performance of the investment manager and the Funds. As part of these presentations, the investment manager and senior management of FT reviewed enhancements that have been made, and are being made, to the investment manager's investment process.

Particular attention in assessing performance was given to the Broadridge Section 15(c) Report. That report showed the investment performance of each Fund (Class A shares) in comparison to other funds determined comparable by Lipper.

Franklin Mutual U.S. Mid Cap Value Fund. The comparable funds to the Fund, as chosen by Lipper, included all retail and institutional mid-cap value funds. The Fund had total returns in the middle performing guintile for the one-year period ended December 31, 2022, and had annualized total returns for the three- and five-year periods in the second-lowest performing guintiles. The trustees noted that the Fund's total return on an annualized basis for the 10-year period ended December 31, 2022 was in the lowest performing quintile. The trustees also compared Fund performance to other industry benchmarks, including measures of risk-adjusted performance of a fund, as part of their evaluation of investment performance. The trustees discussed with management the reasons for the relative underperformance for the three-, five- and 10-year periods ended December 31, 2022. The Board was encouraged by improved performance in recent years and did not believe that any changes with respect to the Fund were warranted at the time, particularly in light of the continued enhancements to the investment manager's personnel and investment process. The Board noted that it would continue to monitor future performance.

**Franklin MicroCap Value Fund**. The comparable funds to the Fund, as chosen by Lipper, included all retail and institutional small-cap value funds. The Fund had total returns in the best performing quintile for the one-year period ended December 31, 2022, had annualized total returns for the three-year period in the second-best performing quintile, and had annualized total returns for the five-year period in the middle performing quintile. The trustees noted that the Fund's total return on an annualized basis for the 10-year period ended December 31, 2022 was in the second-

lowest performing quintile. The trustees discussed with management the reasons for the relative underperformance for the 10-year periods ended December 31, 2022. Taking into account such discussions, the Board was satisfied with such comparative performance.

The trustees also compared Fund performance to other industry benchmarks, including measures of risk-adjusted performance of a fund, as part of their evaluation of investment performance. The trustees concluded that the Fund had performed well in comparison to its various benchmarks and in the context of the Fund's goals.

**Franklin Small Cap Value Fund**. The comparable funds to the Fund, as chosen by Lipper, included all retail and institutional small-cap value funds. The Fund had total returns in the middle performing quintile for the one-year period ended December 31, 2022, had annualized total returns for the three-year period in the second-lowest performing quintile, and had annualized total returns for the five-year period in the second-best performing quintile. The trustees noted that the Fund's total return on an annualized basis for the 10-year period ended December 31, 2022 was in the middle performing quintile. The trustees discussed with management the reasons for the relative underperformance for the three-year periods ended December 31, 2022. Taking into account such discussions, the Board was satisfied with such comparative performance.

The trustees also compared Fund performance to other industry benchmarks, including measures of risk-adjusted performance of a fund, as part of their evaluation of investment performance. The trustees concluded that the Fund had performed well in comparison to its various benchmarks and in the context of the Fund's goals.

### COMPARATIVE EXPENSES AND MANAGEMENT

**PROFITABILITY.** The trustees considered the cost of the services provided and to be provided and the profits realized by the investment manager and its affiliates from their respective relationships with each Fund. As part of the renewal process, the trustees explored with management the trends in expense ratios over the past three fiscal years and the reasons for any increases in each Fund's expense ratios (or components thereof). In considering the appropriateness of the management fee and other expenses charged to each Fund, the Board took into account various factors including investment performance and matters relating to Funds' operations, including, but not limited to, the guality and experience of its portfolio managers and research staff. Consideration was also given to a comparative analysis in the Broadridge Section 15(c) Report of the investment management fee and total expense ratio

of each Fund in comparison with those of a group of other funds selected by Lipper as its appropriate Lipper expense group. Lipper expense data is based upon information taken from each fund's most recent annual report, which reflects historical asset levels that may be quite different from those currently existing, particularly in a period of market volatility. While recognizing such inherent limitation and the fact that expense ratios generally increase as assets decline and decrease as assets grow, the Board believed the independent analysis conducted by Lipper to be an appropriate measure of comparative expenses.

In reviewing comparative costs, emphasis was given to each Fund's contractual management fee in comparison with the contractual management fee that would have been charged by other funds within its Lipper expense group assuming they were similar in size to such Fund, as well as the actual total expenses of each Fund in comparison with those of its Lipper expense group. The Lipper contractual management fee analysis includes administrative charges as being part of the management fee, and total expenses, for comparative consistency, are shown by Lipper for each Fund's Class A shares.

**Franklin Mutual U.S. Mid Cap Value Fund.** The Fund's contractual management fee rate was in the least expensive quintile of its Lipper expense group and its total expenses were also in the least expensive quintile of such group. The Board was satisfied with such comparative fees and expenses.

**Franklin MicroCap Value Fund.** The Fund's contractual management fee rate was in the second-least expensive quintile of its Lipper expense group and its total expenses were in the second-most expensive quintile of such group. The Board was satisfied with such comparative fees and expenses.

**Franklin Small Cap Value Fund.** The Fund's contractual management fee rate was in the least expensive quintile of its Lipper expense group and its total expenses were also in the least expensive quintile of such group. The Board was satisfied with such comparative fees and expenses.

The trustees also reviewed the Profitability Study addressing profitability of Franklin Resources, Inc., from its overall U.S. fund business, as well as profitability to each Fund's investment manager and its affiliates, from providing investment management and other services to each Fund during the 12-month period ended September 30, 2022, the most recent fiscal year-end of Franklin Resources, Inc. The trustees reviewed the basis on which such reports are prepared and the cost allocation methodology utilized in the Profitability Study, it being recognized that allocation methodologies may each be reasonable while producing different results. In this respect, the Board noted that the reasonableness of the cost allocation methodologies was reviewed by independent accountants on an every other year basis.

The independent trustees met with management to discuss the Profitability Study. This included, among other things, a comparison of investment management income with investment management expenses of each Fund; comparison of underwriting revenues and expenses; the relative relationship of investment management and underwriting expenses; shareholder servicing profitability; economies of scale; and the relative contribution of each Fund to the profitability of the investment manager and its parent. In discussing the Profitability Study with the Board, the investment manager stated its belief that the costs incurred in establishing the infrastructure necessary to operate the type of mutual fund operations conducted by it and its affiliates may not be fully reflected in the expenses allocated to each Fund in determining its profitability.

The Board also took into account management's expenditures in improving shareholder services provided to each Fund, as well as the need to meet additional regulatory and compliance requirements. The trustees also considered the extent to which the investment manager may derive ancillary benefits from the Funds' operations, including those derived from economies of scale, discussed below, the allocation of each Fund's brokerage and the use of commission dollars to pay for research and other similar services.

Based upon their consideration of all these factors, the trustees determined that the level of profits realized by the investment manager and its affiliates in providing services to each Fund was not excessive in view of the nature, quality and extent of services provided.

**ECONOMIES OF SCALE.** The Board considered economies of scale realized by the investment manager and its affiliates as the Funds grow larger and the extent to which they are shared with the Funds' shareholders, as for example, in the level of the investment management fee charged, in the quality and efficiency of services rendered and in increased capital commitments benefiting the Funds directly or indirectly. While recognizing that any precise determination is inherently subjective, the trustees noted that, based upon the Profitability Study, as some funds increase in size, at some point economies of scale may result in the investment manager realizing a larger profit margin on investment management services provided to such a fund. Except for

the Franklin MicroCap Value Fund, the trustees also noted that benefits of economies of scale will be shared with each Fund shareholders due to the decline in the effective investment management fee rate as breakpoints are achieved by such Fund.

The fee structure under the investment management agreement for the Franklin MicroCap Value Fund provides a flat fee of 0.75% at all asset levels. It was noted the Fund primarily invests in domestic and foreign securities that are believed to be undervalued with, at the time of purchase, the higher of (1) a market capitalization of less than \$1 billion, or (2) a total market capitalization within the bottom 40% of the Russell 2000 Value Index. Management stated its belief that such limited investment options curtail the potential size of the Fund, thus preventing the type of economies of scale that might benefit other funds from increases in size and also pointed out that the Fund, whose asset size was approximately \$218 million as of April 30, 2023, had been closed to new investors, with limited exceptions, since January 14, 2004, and reopened to new investors effective September 19, 2019. Management also expressed its view that this fee was relatively low for this type of a fund and pointed out the favorable comparison of fees and expenses within its Lipper expense group. The independent trustees acknowledged that management's explanation provided a reasonable basis for believing the existing fee rate under the investment management agreement was fair and that, in view of the Fund's current modest size, management was not benefiting from any meaningful economies of scale in its management of the Fund, but would continue to monitor such matters.

Other than the Franklin MicroCap Value Fund, the trustees noted that breakpoints had been instituted as part of the Funds' investment management fee and that the Board regularly evaluates whether additional breakpoints are appropriate. For Franklin US Mid Cap Value Fund and Franklin Small Cap Value Fund, the trustees assessed the savings to shareholders resulting from such breakpoints and believed they were, and continue to be, appropriate and they agreed to continue to monitor the appropriateness of the breakpoints. The trustees also considered the effects an increase in assets under management would have on the investment management fee and expense ratio of each Fund. To the extent further economies of scale may be realized by the investment manager and its affiliates, the Board believed the investment management fees provide a sharing of benefits with each Fund and its shareholders.

### Liquidity Risk Management Program

Each of the Franklin Templeton and Legg Mason Funds has adopted and implemented a written Liquidity Risk Management Program (the "LRMP") as required by Rule 22e-4 under the Investment Company Act of 1940 (the "Liquidity Rule"). The LRMP is designed to assess and manage each Fund's liquidity risk, which is defined as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors' interests in the Fund. In accordance with the Liquidity Rule, the LRMP includes policies and procedures that provide for: (1) assessment, management, and review (no less frequently than annually) of each Fund's liquidity risk; (2) classification of each Fund's portfolio holdings into one of four liquidity categories (Highly Liquid, Moderately Liquid, Less Liquid, and Illiquid); (3) for Funds that do not primarily hold assets that are Highly Liquid, establishing and maintaining a minimum percentage of the Fund's net assets in Highly Liquid investments (called a "Highly Liquid Investment Minimum" or "HLIM"); and (4) prohibiting the Fund's acquisition of Illiquid investments that would result in the Fund holding more than 15% of its net assets in Illiquid assets. The LRMP also requires reporting to the Securities and Exchange Commission ("SEC") (on a non-public basis) and to the Board if the Fund's holdings of Illiquid assets exceed 15% of the Fund's net assets. Funds with HLIMs must have procedures for addressing HLIM shortfalls, including reporting to the Board and, with respect to HLIM shortfalls lasting more than seven consecutive calendar days, reporting to the SEC (on a non-public basis).

The Director of Liquidity Risk within the Investment Risk Management Group (the "IRMG") is the appointed Administrator of the LRMP. The IRMG maintains the Investment Liquidity Committee (the "ILC") to provide oversight and administration of policies and procedures governing liquidity risk management for Franklin Templeton and Legg Mason products and portfolios. The ILC includes representatives from Franklin Templeton's Risk, Trading, Global Compliance, Legal, Investment Compliance, Investment Operations, Valuation Committee, Product Management and Global Product Strategy.

In assessing and managing each Fund's liquidity risk, the ILC considers, as relevant, a variety of factors, including the Fund's investment strategy and the liquidity of its portfolio investments during both normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to other funding sources including the Funds' interfund lending facility and line of credit. Classification of the Fund's portfolio holdings in the four liquidity categories is based on the number of days it is reasonably expected to take to convert the investment to cash (for Highly Liquid and Moderately Liquid holdings) or sell or dispose of the investment (for Less Liquid and Illiquid investments), in current market conditions without significantly changing the investment's market value.

Each Fund primarily holds liquid assets that are defined under the Liquidity Rule as "Highly Liquid Investments," and therefore is not required to establish an HLIM. Highly Liquid Investments are defined as cash and any investment reasonably expected to be convertible to cash in current market conditions in three business days or less without the conversion to cash significantly changing the market value of the investment.

At meetings of the Funds' Board of Trustees held in May 2023, the Program Administrator provided a written report to the Board addressing the adequacy and effectiveness of the program for the year ended December 31, 2022. The Program Administrator report concluded that (i.) the LRMP, as adopted and implemented, remains reasonably designed to assess and manage each Fund's liquidity risk; (ii.) the LRMP, including the Highly Liquid Investment Minimum ("HLIM") where applicable, was implemented and operated effectively to achieve the goal of assessing and managing each Fund's liquidity risk; and (iii.) each Fund was able to meet requests for redemption without significant dilution of remaining investors' interests in the Fund.

### Proxy Voting Policies and Procedures

The Trust's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Trust uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Trust's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Trust's proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

### Quarterly Schedule of Investments

The Trust files a complete schedule of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year as an exhibit to its report on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the Commission's website at sec. gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.

# Householding of Reports and Prospectuses

You will receive, or receive notice of the availability of, each Fund's financial reports every six months. In addition, you will receive an annual updated summary prospectus (detail prospectus available upon request). To reduce Fund expenses, we try to identify related shareholders in a household and send only one copy of the financial reports (to the extent received by mail) and summary prospectus. This process, called "householding," will continue indefinitely unless you instruct us otherwise. If you prefer not to have these documents householded, please call us at (800) 632-2301. At any time you may view current prospectuses/ summary prospectuses and financial reports on our website. If you choose, you may receive these documents through electronic delivery.
